THE RIGHT ATMOSPHERE
FOR EVERYONE

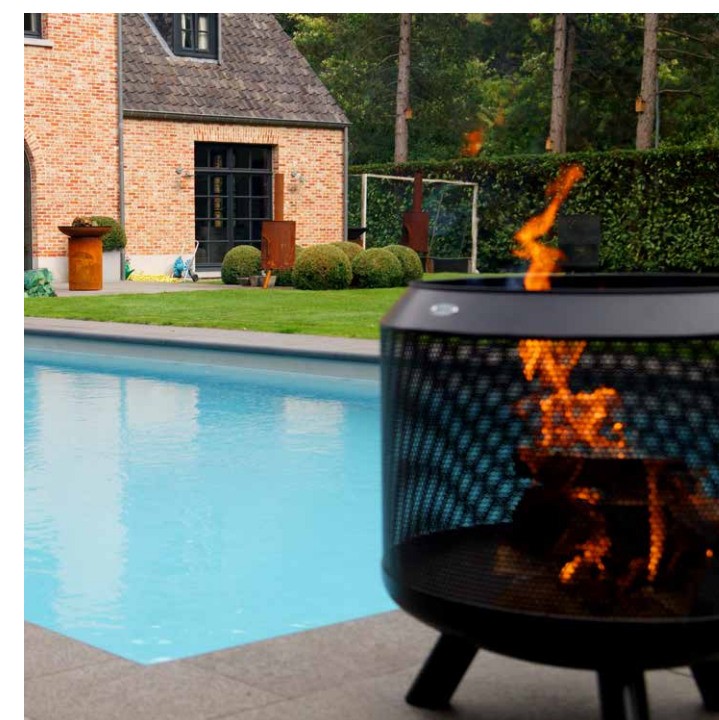

THE RIGHT ATMOSPHERE FOR EVERYONE

The HEAT brand is characterised by a very diverse and fashionable range of different products for your garden or terrace with an excellent price-quality ratio.

Therefore, there is a HEAT fireplace, fire pit or other atmosphere creator for everyone. This brochure contains the extensive range of HEAT products. This range has been put together with care.

Models from modern to classic, from sleek to rustic, from chic to robust. There is something for everyone. So that everyone can enjoy the atmosphere and warmth of these terrace fireplaces, fire bowls and fire pits until late at night!

FIREBOWL CLASSIC 60

Enjoy more beautiful summer evenings on your terrace with the delicious warmth of this trendy Classic fire bowl 60 of HEAT Outdoor Living. This fire bowl is of a solid quality and made of lacquered steel. You will enjoy many evenings with this modern garden fire bowl.

It is not surprising that this fire bowl is so popular. For an attractive price you get a great fire bowl with a diameter of no less than 60 cm in your garden! The HEAT fire bowl Classic is also available with a rusty look. This fire bowl has a rounded - not sharp - edge and is therefore extremely safe to use!

FRIEDA

If you are looking for a large fire bowl at an attractive price, then this HEAT fire bowl Frieda might be just what you are looking for! With this sleekly designed fire bowl of HEAT Outdoor Living, you can tackle the cool summer evenings in style!

This garden fire does not only provide a lot of warmth, but also a lot of atmosphere in your garden. The bowl of the garden fire is made of durable heat-resistant lacquered sheet steel and can therefore stand rough handling. The diameter is no less than 75 cm.

In combination with a grill bowl, a wok and or cast iron stewpots, it is wonderful to cook outside over this Frieda garden fire. So enjoy an old-fashioned campfire all year round.

FIRE DRUM

The HEAT Outdoor Living Fire Drum is a stylish round fire basket that is equipped with small holes all around so that you have a cosy view of the moving flames and are not bothered by fire particles jumping around.

The design is based on the old-fashioned washing drum that was sometimes used by hobbyists to make their own fire basket. The HEAT Fire Drum has a large opening at the top through which the firewood can pass. The grilling grid supplied can also be placed on this opening so that you can grill a delicious piece of meat or fish in between meals on a pleasant summer evening.

The grill grid can be removed with the tools that are included with this fire basket. The Fire Drum is made of black powder-coated steel and stands on three sturdy legs.

3in1

Are you looking for a special fire basket? Then this HEAT fire basket 3-in-1 is probably exactly what you are looking for! This multifunctional fire basket is extremely practical! This fire basket can also be used as a barbecue and side table. If it cools down during the evening, you can easily remove the wooden top and light a fire. Or you can start the evening by grilling a piece of meat and end it by burning some fire logs....

The 3-in-1 fire basket is available in 3 different designs; Metal, Stone-look and Wood-look. All the 3-in-1 fire baskets comes with a grill grid, ground grid, wooden board, sparkscreen, shovel and poker.

LA LUZ

The HEAT terrace fireplace La Luz is now also available in an XL variant. This is the sister of the enormously popular La Luz 140 terrace fireplace, but with an extra large (Ø 60 cm) stoking area. The La Luz terrace fireplace is made of black powder-coated sheet steel and provided with a solid heat-resistant black lacquer.

This makes the fireplace suitable to use all year round. The terrace fireplace is equipped with a chimney for the removal of smoke. The canopy on the pipe prevents rain. It is not surprising that the La Luz patio fireplace is so popular. For an attractive price you get a great garden fireplace in the house.

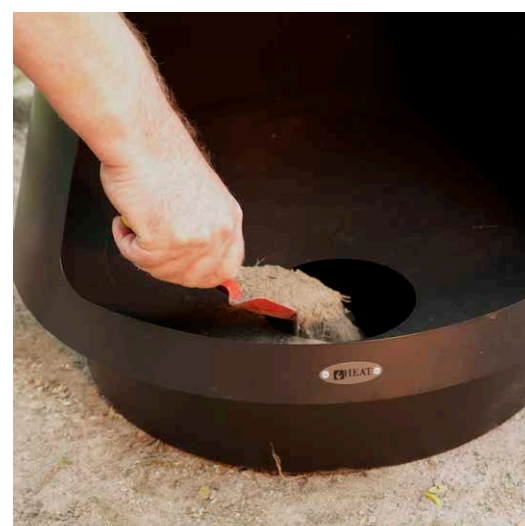

The terrace fireplace La Luz guarantees already for many years attractive evenings and a pleasant warmth!

SAGA

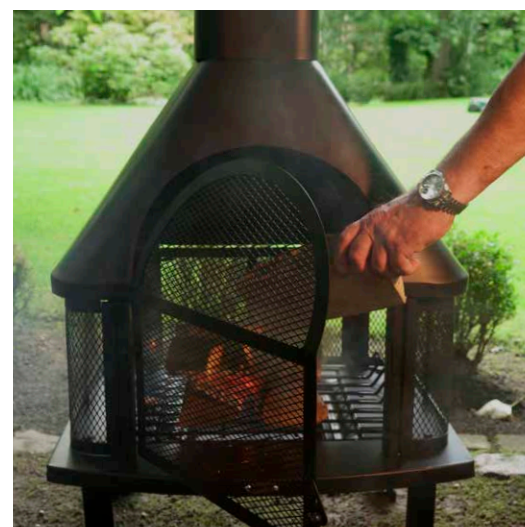

The Saga patio fireplace is a beautiful traditional fireplace from the HEAT Outdoor Living brand. This stylish garden fireplace is a rectangular fireplace with an extra-large, easily accessible firebox. This allows you to optimally enjoy the released heat. The fireplace is also equipped with mesh around it so that the flames remain clearly visible and the fire blocks also remain neatly inside the fireplace and do not fall to the ground. The handy door with spark gauze is easy to open for the supply of firewood.

The fireplace comes complete with grate and canopy on the chimney. If you are looking for a traditional, user-friendly patio fireplace, then the Saga garden fireplace is probably an excellent choice! You will enjoy many pleasant evenings with it! Who would not like to spend time with family or friends around this cosy fireplace enjoying the atmosphere?

LARVIK

The popular HEAT Larvik patio fireplace is a beautifully designed patio fire that provides warmth in your garden. The Larvik, with a diameter of 45 cm, is made of powder coated metal and is therefore weatherproof.

The terrace fireplace is also equipped with a handy storage compartment for logs. Not only pleasing to the eye, but also very practical. No more running up and down with logs. The chimney ensures that the smoke is discharged perfectly and is equipped with a rain cover which prevents rain getting in. The removable ashtray makes it easy to remove ash and wood residue.

In short, you will enjoy this modern terrace fireplace!
